

A11101 295006

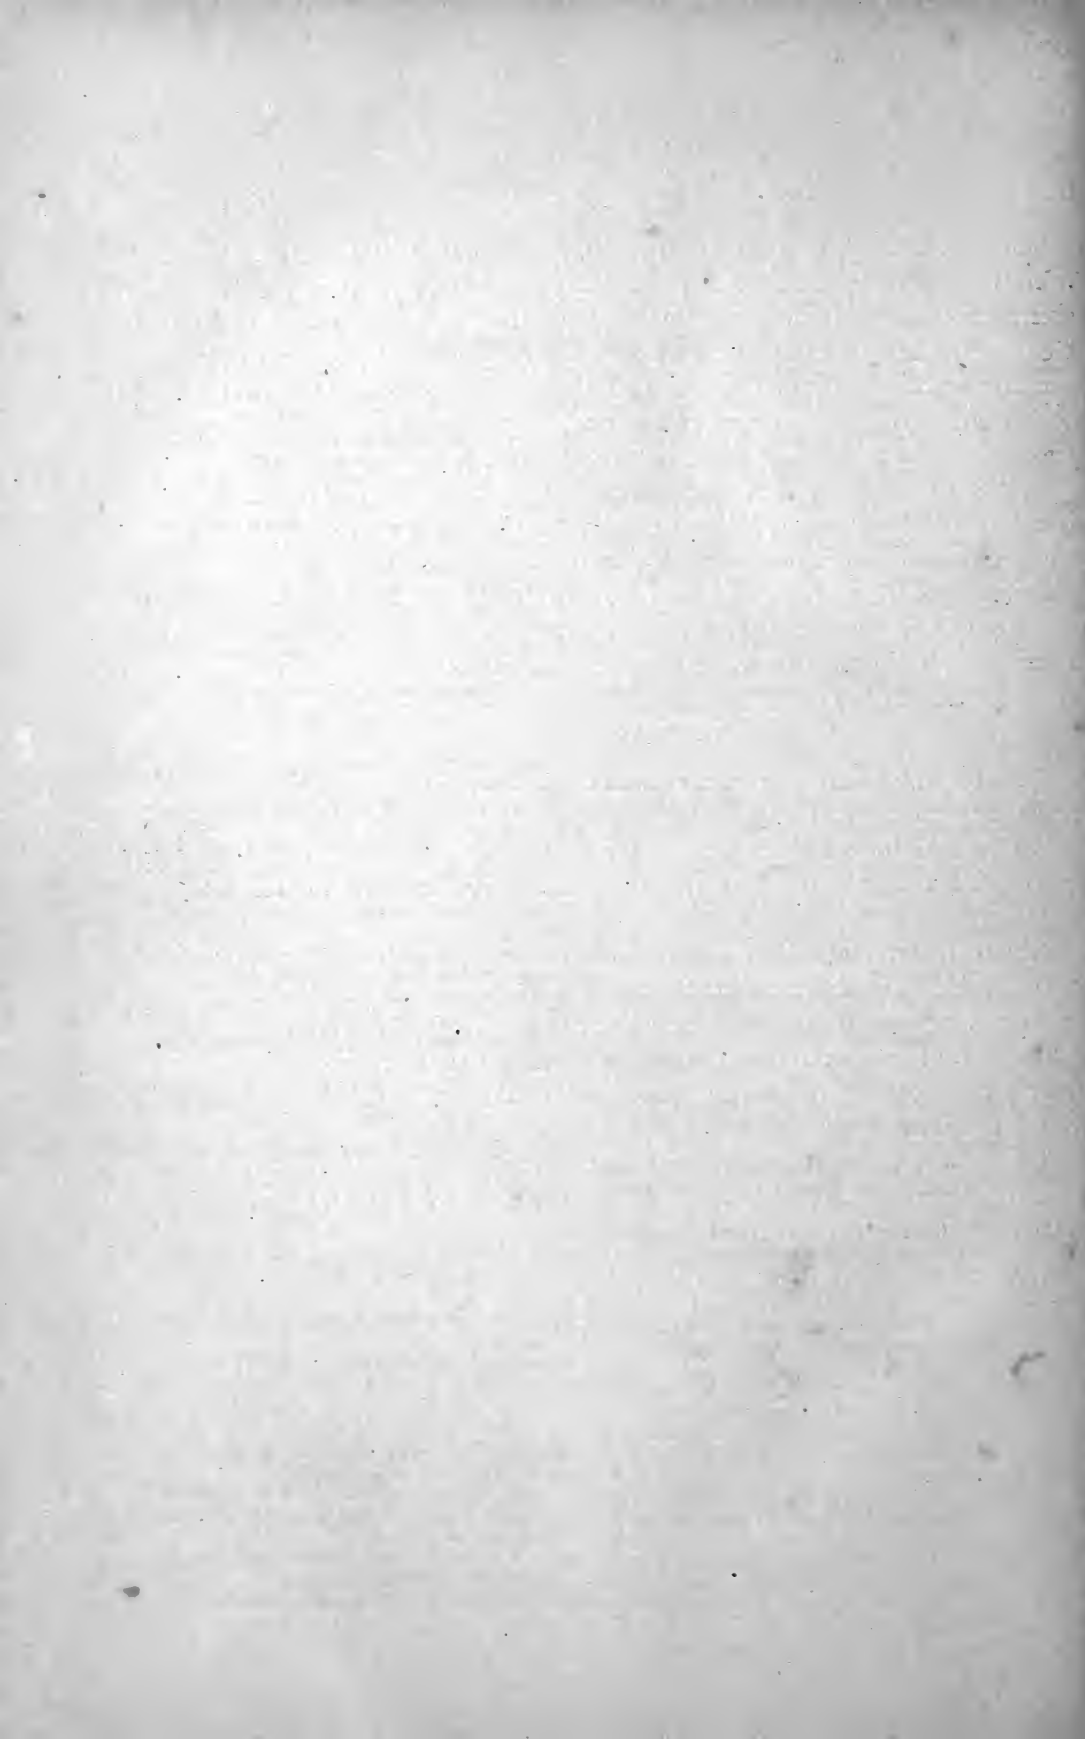

NAT'L INST OF STANDARDS & TECH R.I.C.

A11101295006

/Bulletin of the Bureau of Standards
QC1 .U5 V13:1916-17 C.2 NBS-PUB-C 1905

INDEX TO VOLUME 13.

A.

- Acetylene, Determination of, 27.
 Acetylene flame, Distribution of energy in visible spectrum of, 355.
Agnew, P. G., W. H. Stannard, and J. L. Fearing, A system of remote control for an electric testing laboratory, 581.
 Alloys, Iron-carbon, 1.
 Aluminum as oxide, Determination of, 515.
 Antenna, Radiotelegraphic, 129.
 Apparatus for resistance thermometry, 547.
 Aqueous solutions of copper sulphate and sulphuric acid, Density of, 273.

B.

- Bates, Frederick, and Richard F. Jackson*, Constants of the quartz-wedge saccharimeter and the specific rotation of sucrose. I. The constants for the 26-gram normal weight, 67.
Bingham, Eugene C., Investigation of the laws of plastic flow, 309.
 Black body, Luminosity of, 137.
 Black body, Spectral radiation of, 459.
Blum, William, Determination of aluminum as oxide, 515.
Bovard, William M., G. W. Vinal and, Inclusions in the silver voltameter deposits, 147.
 Bridges, Wheatstone, 547.
Brooks, H. B., and F. C. Weaver, A variable self and mutual inductor, 569.
Burgess, G. K., and R. G. Wallenberg, Further experiments on the volatilization of platinum, 365.
Burns, Kevin, W. F. Meggers, and Paul W. Merrill, Interference measurements of wave lengths in the iron spectrum, 245.
Burrows, Charles W., Correlation of the magnetic and mechanical properties of steel, 173.

C.

- Cain, J. R., E. Schramm, and H. E. Cleaves*, Preparation of pure iron and iron-carbon alloys, 1.
 Calculation of Planck's constant C_2 , 535.
Cleaves, H. E., and E. Schramm, J. R. Cain, Preparation of pure iron and iron-carbon alloys, 1.
Coblentz, W. W., Constants of spectral radiation of a uniformly heated inclosure or so-called black body, 459.
 —, Sensitivity and magnetic shielding tests of a Thomson galvanometer for use in radiometry, 423.
 —, and *W. B. Emerson*, Distribution of energy in the visible spectrum of an acetylene flame, 355.
 Color differences in glass screens and tungsten lamps, 287.

- Colorimetric determination of acetylene and its application to the determination of water, 27.
 Composition and density of aqueous solutions of copper sulphate and sulphuric acid, 273.
 Constants of quartz-wedge saccharimeter and the specific rotation of sucrose. I. The constants for the 26-gram normal weight, 67.
 Constants of spectral radiation of a uniformly heated inclosure or so-called black body, II, 459.
 Control for electric testing laboratory, 581.
 Correlation of the magnetic and mechanical properties of steel, 173.
 Critically damped galvanometers, Design of, 211.

D.

- Damping of waves and other disturbances in mercury, 563
Dellinger, J. H., Calculation of Planck's constant C_2 , 535.
 —, International system of electric and magnetic units, 599.
 Density of aqueous solutions of copper sulphate and sulphuric acid, Relation between composition and, 273.
 Determination of acetylene, 27.
 Determination of aluminum as oxide, 515.
 Dextrose, Rotation of, 633.
 Dielectrics, Effect of imperfect, 129.
 Distribution of energy in the visible spectrum of an acetylene flame, 355.
 Disturbances in mercury, 563.

E.

- Effect of imperfect dielectrics in the field of a radiotelegraphic antenna, 129.
 Electric and magnetic units, 599.
 Electric testing laboratory, System of remote control for, 581.
Emerson, W. B., W. W. Coblentz and, Distribution of energy in the visible spectrum of an acetylene flame, 355.
 Energy in the visible spectrum of an acetylene flame, 355.
 Experiments on silver voltameter, 479.
 Experiments on the volatilization of platinum, 365.

F.

- Fairchild, C. O., Paul D. Foote and*, Luminosity of a black body and temperature, 137.
Fearing, J. L., and W. H. Stannard, P. G. Agnew, A system of remote control for an electric testing laboratory, 581.
Foote, Paul D., and C. O. Fairchild, Luminosity of a black body and temperature, 137.
 Four-terminal resistance standards, Inductance of, 375.

Freezing point of mercury, 655.

Further experiments on the volatilization of platinum, 365.

G.

Galvanometers, Critically damped, 211.

Galvanometer for use in radiometry, Sensitivity and magnetic shielding tests of, 423.

General design of critically damped galvanometers, 211.

Glass screens and tungsten lamps, Photometric comparison of, 287.

Gray, Arthur W., Protected thermoelements, 283.

H.

Heated inclosure, uniformly, Spectral radiation of, 459.

Holler, H. D., and E. L. Peffer, Relation between composition and density of aqueous solutions of copper sulphate and sulphuric acid, 273.

I.

Inclusions in the silver voltameter deposits, 147.

Inductance of four-terminal resistance standards, 375.

Inductor, Self and mutual, 569.

Interlaboratory photometric comparison of glass screens and of tungsten lamps, involving color differences, 287.

Interference measurements of wave lengths in the iron spectrum, 245.

International system of electric and magnetic units, 599.

Investigation of the laws of plastic flow, 309.

Iron, Preparation of pure, 1.

Iron spectrum, Interference measurements of wave lengths in, 245.

J.

Jackson, Richard F., Saccharimetric normal weight and the specific rotation of dextrose, 633.

—, Frederick Bates and, Constants of the quartz-wedge saccharimeter and the specific rotation of sucrose. I. The constants for the 26-gram normal weight, 67.

L.

Lamps, tungsten, Photometric comparison of glass screens and of, 287.

Laws of plastic flow, 309.

Luminosity of a black body and temperature, 137.

M.

Magnetic and mechanical properties of steel, Correlation of, 173.

Magnetic shielding tests of a Thomson galvanometer, 423.

Magnetic units, Electric and, 599.

Measurements of wave lengths in the iron spectrum, 245.

Mechanical properties of steel, 173.

Meggers, W. F., Kevin Burns, and Paul W. Merrill, Interference measurements of wave lengths in the iron spectrum, 245.

Mercury, Disturbances in, 563.

Mercury, Freezing point of, 655.

Merrill, Paul W., and W. F. Meggers, Kevin Burns, Interference measurements of wave lengths in the iron spectrum, 245.

Middlekauff, G. W., and J. F. Skogland, Interlaboratory photometric comparison of glass screens and of tungsten lamps, involving color differences, 287.

Miller, J. M., Effect of imperfect dielectrics in the field of a radiotelegraphic antenna, 129.

Mueller, E. F., Wheatstone bridges and some accessory apparatus for resistance thermometry, 547.

Mutual inductor, Self and, 569.

N.

Normal weight of dextrose, 633.

Normal weight of sucrose, 67.

O.

Oxide, Aluminum as, 515.

P.

Peffer, E. L., H. D. Holler and, Relation between composition and density of aqueous solutions of copper sulphate and sulphuric acid, 273.

Photometric comparison of glass screens and of tungsten lamps, 287.

Planck's constant C_2 , 535.

Plastic flow, 309.

Platinum, Volatilization of, 365.

Preparation of pure iron and iron-carbon alloys, 1.

Protected thermoelements, 283.

Q.

Quartz-wedge saccharimeter, Constants of, 67.

R.

Radiation of a uniformly heated inclosure, 459.

Radiometry, Galvanometer for use in, 423.

Radiotelegraphic antenna, Effect on field of, 129.

Relation between composition and density of aqueous solutions of copper sulphate and sulphuric acid, 273.

Remote control for electric testing laboratory, 581.

Resistance standards, Inductance of four-terminal, 375.

Resistance thermometry, 547.

Rosa, E. B., and G. W. Vinal, Summary of experiments on the silver voltameter at the Bureau of Standards, and proposed specifications, 479.

—, —, Volume effect in the silver voltameter, 447.

Rotation of dextrose, 633.

Rotation of sucrose, 67.

S.

Saccharimeter, Quartz-wedge, 67.

Saccharimetric normal weight and the specific rotation of dextrose, 633.

Schramm, E., J. R. Cain, and H. E. Cleaves, Preparation of pure iron and iron-carbon alloys, 1.

Screens, glass, Photometric comparison of, 287.

Self and mutual inductor, 569.

Sensitivity and magnetic shielding tests of a Thomson galvanometer for use in radiometry, 423.

- Silsbee, Francis B.*, A study of the inductance of four-terminal resistance standards, 375.
 Silver voltmeter deposits, Inclusions in, 147.
 Silver voltmeter, Experiments on, 479.
 Silver voltmeter, Volume effect in, 447.
Skogland, J. F., G. W. Middlekauff and, Interlaboratory photometric comparison of glass screens and of tungsten lamps, involving color differences, 287.
 Specifications for silver voltmeter, 479.
 Specific rotation of dextrose, 633.
 Spectral radiation of a uniformly heated inclosure, 459.
 Spectrum, Visible, of an acetylene flame, 355.
Stannard, W. H., P. G. Agnew, and J. L. Fearing, A system of remote control for an electric testing laboratory, 581.
 Steel, Magnetic and mechanical properties of, 173.
Stillman, M. H., Damping of waves and other disturbances in mercury, 563.
 Study of the inductance of four-terminal resistance standards, 375.
 Sucrose, Rotation of, 67.
 Sulphuric acid, copper sulphate and, Density of aqueous solutions of, 273.
 Summary of experiments on the silver voltmeter at the Bureau of Standards and proposed specifications, 479.
 System of electric and magnetic units, 599.
 System of remote control for an electric testing laboratory, 581.

T.

- Temperature, Luminosity of a black body and, 137.
 Thermoelements, Protected, 283.
 Thermometry, Resistance, 547.
 Thomson galvanometer for use in radiometry, 423.
 Tungsten lamps, Photometric comparison of glass screens and of, 287.

U.

- Units, magnetic, Electric and, 599.

V.

- Variable self and mutual inductor, 569.
Vinal, G. W., and William M. Bovard, Inclusions in the silver voltmeter deposits, 147.
 —, *E. B. Rosa and*, Summary of experiments on the silver voltmeter at the Bureau of Standards and proposed specifications, 479.
 —, —, Volume effect in the silver voltmeter, 447.
 Visible spectrum of an acetylene flame, 355.
 Volatilization of platinum, 365.
 Voltmeter, Deposits in, 147.
 Voltmeter, silver, Volume effect in, 447.
 Voltmeter, silver, Summary of experiments on, 479.
 Volume effect in the silver voltmeter, 447.

W.

- Waltenberg, R. G., G. K. Burgess and*, Further experiments on the volatilization of platinum, 365.
 Water, Determination of, 27.
 Waves, Damping of, 563.
Weaver, E. R., Colorimetric determination of acetylene and its application to the determination of water, 27.
Weaver, F. C., H. B. Brooks and, A variable self and mutual inductor, 569.
 Weight, Saccharimetric normal, 633.
Wenner, Frank, General design of critically damped galvanometers, 211.
 Wheatstone bridges and some accessory apparatus for resistance thermometry, 547.
Wilhelm, R. M., Freezing point of mercury, 655.
